2. Scope of Work

The Software Solution Provider shall provide services as outlined in the Scope of Work document, including software requirements, development stages, and deliverables. Both parties agree to adhere to the specified timeline, and any delays must be communicated in writing. If delays are caused by the Client, such as changes to business requirements or UI/UX after signing the business requirements document and before the completion date, the timeline will be adjusted accordingly to accommodate these changes.

4. Payment Terms

- **Development Fee:** The development cost is RM 50 per day.
